## Meitec Group Strengthens its Engineer Training Business in China

*Meitec subsidiary in Dalian, China, made a wholly-owned subsidiary*

Meitec Corporation (Head Office: Akasaka, Minato-ku, Tokyo; President: Kosuke Nishimoto; Listings: TSE/NSE First Section, code 9744) announced today that as a means of strengthening and expanding its engineer training business in China, that it has made MEITEC Dalian TechnoCenter Co., Ltd. (Established: November 2004; Capitalization: RMB 8,000,000; Meitec shareholding ratio: 95%), its engineer training subsidiary in Dalian, China, a wholly-owned subsidiary by acquiring the equity stake (5%) held by Dalian Xinhua Infotech Co., Ltd., its joint venture partner in China.

Going forward, Meitec will utilize its four engineer training locations in China (two wholly-owned subsidiaries, and two joint ventures with local investors) to accelerate the supply of engineers in China, as well as expand its Chinese engineer business in Japan. Meitec also plans to further increase the number of locations in the China area, and pursue global development in other areas of Asia, following examination and consideration of the needs of Japanese companies.
