## **Information Regarding the 2011 off the Pacific coast of Tohoku Earthquake in Japan**

Meitec Corporation

Meitec Corporation would like to extend its deepest condolences to those people who were affected by the 2011 off the Pacific coast of Tohoku Earthquake which occurred on March 11, 2011.

As of today, our statuses are as follows;

### **1. Extend of Damage**

#### (1) About the damage to our personnel

Currently, as to the information we have confirmed, there is no injury or loss to our personnel including our engineers.

#### (2) About our facilities

The office building which our office are located in the city of Sendai have suffered damages, and we are suspending our operations there. But every one is in contacts.

Other offices in Tohoku and Northern Kanto area have suffered some damages to the buildings they are located in, but the effect to our operation is minor.

Currently, we have set up a headquarters for disaster control in our company to gather information and make effort to ensure the safety.

### **2. Effects to our Performances**

We are now gathering information regarding the damages and effects to our performances due to the quake. If we expect large effect to our performances, we will make announcements promptly.
