**Meitec Group Announces Fiscal 2022 Newly Graduates Hiring Plan of 880**  
**- Meitec Group will start recruiting activity for science major newly graduates who will graduate from universities and graduate schools in March 2022-**

MEITEC CORPORATION (Meitec) and its group company, MEITEC FIELDERS, INC. (Meitec Fielders), announced their plan to hire 880 newly graduates of science major from universities and graduates schools who will be graduating in March 2022.

Since its establishment in 1974 as the pioneer in engineer staffing business, Meitec Group (the Group) has provided “People and Technology” services to total of over 4,000 Japanese manufacturers until today. In April 2017, we have established a corporate group slogan " Engineering Firm at The Core" to express the essence of the group. The slogan would represent that, as a group of engineers which plays a core role in the manufacturing through the people and technologies, we will continue to be the indispensable “best partner” for our client in the manufacturing industry, and to enrich the “engineer life” of our employees. By doing so, we will actively secure human resources to contribute value to the world.

By recruiting the newly graduates of science major from universities and graduates schools every year, the Group now employ approximately 10,702 engineers (as of January 31, 2021) and has built largest “Group of Professional Engineers” in Japan. The Meitec Group offers a way to work in profession of engineer to those who join us by providing “opportunities and a placement” to work in entire Japanese manufacturing industries.

Also as of March 31, 2021, number of the “Lifetime Professional Engineers” who have reached the retirement age of 60 years will be 431 people.

And for these 789 newly graduates whom we plan to hire in April 2021, the Group will continue to provide good “opportunities and placements” for them to work as the professional engineers for lifetime.

\*Lifetime Professional Engineers: It is the Meitec’s internal definition for an engineer who can continue to be a frontline active engineer until his or her retirement age.

1. Newly Graduate Hiring Plan for April 2022
